Sai Smruti Ranjan Das

7987237184 | saismrutiranjan1810@gmail.com | linkedin.com/in/saismrutiranjan/ | github.com/saismrutiranjan18

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML/CSS
Frameworks: React, Node.js, Express, Tailwind CSS, Material-UI, Bootstrap
Developer Tools: Git/GitHub, MongoDB, VS Code, Visual Studio, CI/CD (GitHub Actions)

EDUCATION

Medi-caps University Aug. 2023 – May 2027
Bachelor of Technology in Computer Science *CGPA: 8.6/10*

Shiva Academy English Medium Hr. Sec. School Aug. 2021 – May 2023
Pre-University - Physics, Chemistry, Math *Percentage: 88.6%*

EXPERIENCE

MII Foundation — Developers Community of Medi-Caps University Jan 2025 – Apr 2025
Front-End Engineer Intern *Indore (On-site)*

- Developed responsive UI for the Mentoring System project using React and Bootstrap.
- Implemented clean, modular components and followed best practices for performance and accessibility.
- Collaborated closely with the backend team to ensure seamless data integration and functionality.

Apertre 2.0 - Resourcio Community March 2025 – April 2025
Project Admin *Remote*

- Served as an admin for the Resourcio Community during the Apertre 2.0 event, helping coordinate and manage event operations.
- Worked closely with the organizing team to streamline communication, delegate tasks, and support participants.
- Ensured smooth execution of activities by maintaining structured workflows and resolving event-related issues promptly.

Social Winter of Code (SWOC) Jan 2025 – Apr 2025
Project Admin *Remote*

- Serve as the Project Admin, overseeing the development and management of the Tiffin Fusion project as part of the SWOC program.
- Coordinate contributions from the community, ensuring active participation and smooth collaboration.
- Review and validate pull requests, maintaining code quality and alignment with project goals.

Social Winter of Code (SWOC) Dec 2024 – Jan 2025
Contributor *Remote*

- Actively contributed to open-source projects through the Social Winter of Code (SWOC).
- Identified and resolved various issues within project repositories.
- Submitted multiple pull requests to implement bug fixes and enhancements, collaborating with project maintainers and other contributors.

PROJECTS

ConvoAI | *React.js, Node.js, Express.js, MongoDB, Gemini API Integration*   **October 2025**
- Developed an AI-powered chat platform that delivers instant, natural, and context-aware responses.
- Implemented backend message handling and AI integration using Node.js and Express.js.
- Designed a clean and interactive chat interface in React with smooth real-time message updates.

Video Calling Application | *WebRTC, Node.js, Express.js, Socket.io*   **July 2025**
- Created a real-time video communication platform enabling peer-to-peer video calls using WebRTC.
- Implemented Socket.io-based signaling system for connection setup between users.
- Added features such as room creation, camera/mic control, and smooth media streaming.

Zerodha Clone | *MongoDB, Express.js, React, Node.js (MERN)*   **March 2025**
- Developed a trading platform replica with authentication, portfolio dashboard, and stock tracking UI.
- Integrated mock market data to simulate real-time trading experience.
- Implemented MERN stack best practices to improve full-stack expertise.

Tiffin Fusion | *HTML, CSS, JavaScript, Bootstrap*   **October 2024**
- Developed a responsive platform connecting tiffin centers with students and professionals.
- Designed clean UI using Bootstrap with interactive JavaScript features for better engagement.
- Ensured mobile-friendly design with optimized layout across all screen sizes.

PeerFolio | *React.js, Node.js, Express.js, MongoDB*   **2025 (In Progress)**
- Building a networking platform that helps individuals showcase their work and connect with peers.
- Developing features such as user profiles, activity feeds, connections, and interest-based discovery.
- Focused on clean UI, scalability, and smooth onboarding to enhance community interactions.

ACHIEVEMENTS

Hacktoberfest 2025   **Oct. 2025**
Successfully completed the Pull Request Challenge and recognized as a **Super Contributor**.

GirlScript Summer of Code (GSSoC) 2024 Extended   **Nov. 2024**
Ranked **307th** among thousands of open-source contributors.

CERTIFICATIONS

Python for Data Science   **Oct. 2025**
NPTEL

Solution Challenge   **Aug. 2025**
GDG on Campus

Manipal University Jaipur   **Mar. 2025**
Hackathon

GDG on IIIT Kalyani   **Nov. 2024**
Contribution

MongoDB Developer's Toolkit   **Nov. 2024**
GeeksforGeeks

Full Stack Web Development   **Sept. 2024**
Apna College

Postman API Fundamental Student Expert   **Oct. 2024**
